CAREER PROFILE

Full stack developer with 1+ years experience building web applications and websites. Expertise in full stack web development, including frontend frameworks, backend APIs and Agile methodologies. Self-driven, actively looking for ways to contribute, and know how to get things done.

- Frontend: React, Next.js, Html5, CSS3, Sass, Scss, JavaScript, Typescript, Material-UI (MUI), Bootstrap, Tailwindcss, React, Redux, Axios.
- Backend: Node.js, Express, Nest.js, Typescript, JavaScript, Postman.
- Database: MongoDB, Azure SQL, MySQL.
- Testing: Jest, React Testing Library.
- Agile and Version Control: Jira, Git, GitHub, Azure Devops, Azure Portal.
- Cloud and Devplyment: AWS S3, SDK, Vercel, Github Action, Azure.
- Excellent communication and team work skills developed through previous roles.
- Excellent problem solving skill and quick learning ability with a proactive can-do attitude.

EXPERIENCES

Front End Developer | Cyberay, Sydney, NSW

Jun 2023 - Present

- Developing front-end pages and reusable components using React.js, Typescript, Redux and Material UI, deploying the website via Azure Static Web Apps.
- Implementing serverless back-end functionalities by utilising Azure Functions and Node.js.
- Employing Azure SQL for relational database, and Azure Cosmos DB for NoSQL database.
- Implementing Agile development practice with Azure Devops.

Full Stack Developer | FotoPie, Sydney, NSW

Jul 2022 - Jun 2023

- Designed and built FotoPie website from scratch in a team of 16 members to provide users with photo sharing, AI image generation and subscription service: <https://www.fotopie.net>
- Improved user experience for signup and password reset with email verification links and ensured data integrity by building APIs in Nest.js with Typescript, JWT, Mailgun and Bcrypt.
- Built reusable frontend components in Next.js with Typescript, Material-UI, Axios, Redux and Responsive design, which adapts to different screen sizes, and provides state management and handles asynchronous API requests.
- Implemented component tests for frontend components with Jest/React Testing Library, and unit tests for backend services with Jest.
- Designed database schemas and implemented MongoDB Atlas as cloud database solution.
- Integrated Stripe API, OpenAI API and AWS S3 SDK into the backend API server to provide

member subscription, AI image generation and photo upload/storage service.

Accountant | Atlas Property Holdings Pty Ltd, Sydney

May 2017 - Jun 2022

Residential and commercial real-estate development and investment company in NSW

- Used MYOB accounting system to manage bookkeeping, journals, account payable/receivable, bank reconciliation, payroll, superannuation, compliance and quarterly/monthly BAS.

Intern | Fortuna Accountants & Business Advisors, Perth

Sep 2015 - Jan 2016
